

Backwell School Remote Learning Provision

The aims for our remote learning provision are in line with those set out by the Lighthouse Schools Partnership:

Easily accessible

- All students have access to appropriate hardware and have received training in how to access online learning provision such as Frog and Microsoft Teams.
- All staff are trained in how to confidently, effectively and safely deliver remote learning.
- Parents have access to on line tutorials in how to support their child's remote learning.

Harder to stop

- The planned curriculum in each subject studied by students continues in the event of individual, class or whole school closure.
- Students follow their existing timetable, giving them a familiar structure which will support them to be on task and limit distractions within the home.
- All teaching sequences have high quality teacher input and explanations with opportunities for students to apply learning.
- Learning is assessed through submitted work and feedback is given.

Easier to restart

- Because our remote learning provision follows the same sequence of lessons as the curriculum in school it provides continuity so that no individual or group is left behind when they return to the classroom.
- When returning to the classroom teachers will understand the progress made by their pupils. Misconceptions and difficulties will have been quickly identified and addressed to ensure no barriers exist to their future learning.
- The regular opportunities for assessment and feedback enables both teachers and students to have a clear understanding of their current learning.

How will Remote Learning Work?

The following will apply:

- If your child is in isolation following a positive COVID-19 test result and they are feeling well enough to undertake school work.
- If groups/cohorts of children are asked to learn at home temporarily due to large numbers of staff absence*.

Students in Years 7 – 11*
<p>Your child should check Frog and their school email regularly to access remote learning tasks that will be set for them.</p> <p>Topics and activities will mirror what would be happening in the classroom.</p> <p>*likely to only apply to KS3 students in event of closure due to staff absence.</p>

Sixth Form Students (Years 12 & 13)
<p>Students at home should log into Microsoft Teams and follow along with the lesson live from the classroom.</p> <p>Sixth Form students should also regularly check their school email for updates/information from staff.</p>
