

November 2025

Dear Parent/Carer

## **Year 10 - NHS work experience opportunity**

UHBW (University Hospitals Bristol and Weston NHS Trust) have let us know that their process this year is to give every school two places for Year 10 work experience and have asked us to put forward the names of these students.

If your child is interested in completing a work experience in an NHS setting, please complete this MS Form below by **Monday 17 November 2025** to apply. The 2 students will then be selected at random and results told to all students as soon as possible after this.

[NHS Year 10 Work Experience 2025-26 – Fill in form](#)

For the protection of patients and students, some areas of the hospitals will not accept students who have not had their vaccinations. We will be asked to provide copies of vaccination records (all childhood immunisations together with boosters, especially 4 or 5 x doses of Diphtheria, Tetanus and Polio along with the Measles, Mumps and Rubella vaccination with booster) for the successful students. Please confirm on the form that this will be available, should your student gain a place.

Your sincerely

Mr J Pretty  
Assistant Headteacher
